

22nd European Conference on General Thoracic Surgery
Video Abstract Submission

IMPORTANT

There have been some technical problems in using YouTube to submit video for the ESTS Annual Conference.

For this reason we decided to use a different system **ONLY FOR VIDEO SUBMISSION**.

Please use the link <https://www.wetransfer.com>

This system allows for transfer of file up to 2 GB. As a reminder **only videos up to 500 MB** will be accepted for review.

Please log to <https://wetransfer.com> and send the files to sue@ests.org.uk and to enrico.ruffini@unito.it

Please use the text box provided to write the title of your video, authors names and institution details including the email of the corresponding author.

The video should be self explanatory but you are free to write in this section a very brief summary of the case presented (max 150 words) emphasizing the take home message of the video.

Please note that this system is for **VIDEO SUBMISSION ONLY**. To submit regular abstracts for oral presentations please continue to use the [online abstract submission system](#)
