ETHICON

PART OF THE *Johnson & Johnson* FAMILY OF COMPANIES

Technologies

Meet ETHICON staff to understand the full offering of technologies offered by ETHICON to thoracic surgeons. Ranging from stapling solutions, to sealing and dissection devices to wound closure solutions.

Education

Experience available educational solutions. We will describe our educational pathway ranging from different proficiency level educational needs, such as hands on wet labs to on line trainings and joint initiative with ESTS in our "Institutional Partnership" program.

Science and proof generation

Understand clinical data in the field of thoracic surgery. We can also describe processes for surgeons to apply for "Investigator Initiated Trials" (IIS).

Health Economics

Get insights to our work on providing economic arguments for new types of procedural approaches. We will share the work we have developed with key opinion leaders in Europe, summarized in the "VATS lobectomy value dossier".

Research and development

Get an insight to initiatives assisting surgeons to advance surgery through innovative solutions.

Information for delegates

Dear colleagues

ESTS wishes to announce a new initiative for 2016 in Naples.

We wish every aspect of the Conference to have an educational value for you.

With this in mind we have managed to arrange, in Partnership with our Industry colleagues, training sessions at the Exhibition space.

This is a unique opportunity to book an available slot at an Industry booth and experience the latest technology and medical devices available.

These slots come free of charge and give you the privilege of having a one to one tutorial and practical skills on new technology.

If you wish to book such appointment please follow the available link
