## PRESIDENT'S MESSAGE

**Dear Members, dear Guests, dear Friends,**

We have now entered the third decade of life of our beloved Society, the decade of maturity. During all these years, thanks to your invaluable support, ESTS has become the largest scientific society in the world in our field. Since the early days the Annual Meeting was established as the expression of the Society's activities, concentrating in three days the result of the proposals of the working groups, ad hoc committees, the educational platform, the relationships and partnerships with other scientific societies, and, last but not least, the scientific production of all the participants with their abstracts.

The structure of the meeting has progressively evolved and enlarged in parallel with the number of members that now exceeds 1300. This year the Organizing Committee chaired by Enrico Ruffini, Director of the Annual Meeting, is preparing an outstanding program with special sessions, joint symposia organized with other scientific societies, breakfast sessions, invited lectures with outstanding speakers from all over the world, working group sessions and a techno meeting included in the structure of the event. The Postgraduate Course keeps the recent structure of the "Masters Cup" that last year came back to Europe after an exciting competition. However, the original competition between ESTS, AATS, STS and JACS has now evolved into a friendly and constructing scientific arena with the participation of three continents; this year also residents will actively participate to the Cup, bringing new ideas and their enthusiasm.

The Meeting will be a fantastic choice to share our work, learn from others and build new relationships. Your active participation will be crucial to define the direction of our Society for the next years and keep on growing with the help of our members, non-members and the guests.

I personally invite you, along with the ESTS council and officers to join us in Copenhagen, a fantastic city, for some memorable days, to exchange knowledge, ideas, skills, enthusiasm and friendship.

*Federico Venuta*

Federico Venuta  
ESTS President

## WELCOME MESSAGE

### Dear Colleagues, Guests and Friends,

The Local Organizing Committee welcomes you to Copenhagen - the capital of "The World's Happiest People" – to the 22<sup>nd</sup> European Conference on General Thoracic Surgery 15 – 18 June 2014.

With a population of 1.9 million, Copenhagen with surroundings is the largest city in Scandinavia and a city that combines old and new, preserving its 1,000-year history yet looking to the future. Safety, tolerance, green initiatives, international connectivity, creative environment, a relaxed lifestyle, cycle culture, democratic design and the active use of city spaces are among the key reasons why Copenhagen is, once again, the world's best city according to British lifestyle magazine, Monocle.

Copenhagen is located in a region with 10 universities, 165,000 students and 16,000 scientists and researchers, and with a long tradition for compulsory free of charge schooling and universities, we are among the world's most highly educated people.

With non-stop flights from around 140 international destinations, the city is easy to access from all continents and all major European cities are within a one or a few hour's flight. Upon arrival, you will see that the city centre is only 13 minutes away by Metro or train.

Denmark is also the home of the famous story writer Hans Christian Andersen who among many fairytales wrote "The Ugly Duckling" - a story about a baby-swan that grew up among ducks and was seen as an outcast but did undergo changes and ended up in being a beautiful swan – now the national bird of Denmark. This fairytale can very well illustrate the story of our society, and as we now take the next step and move our annual conference into a major European capital.

The 22<sup>nd</sup> ESTS European Conference on General Thoracic Surgery will be held in the Bella Center, located in the area of Copenhagen called Ørestaden. This is a major convention center and our meeting will be placed in the very best setting with a lot of daylight in all meeting facilities. There are a number of hotels in the close neighborhood, as well as a large shopping mall, but if you prefer to stay in the city centre, a ride in the Metro of 10 minutes is all it takes to get to the convention center.

In recent years Copenhagen has earned quite a reputation as a gastronomic capital. The city boasts 15 Michelin stars, and the UK's Restaurant Magazine ranked Copenhagen restaurant, Noma, the World's Best in 2010, 2011 and 2012. It is not only in Michelin starred restaurants you can get a taste of Copenhagen gastronomy as the city has a wealth of dining options with high quality restaurants to accommodate all pockets and tastes. The New Nordic Cuisine, which emphasizes seasonal and regional ingredients, was pioneered at Noma. Today, this environmentally-friendly cuisine is served in a number of restaurants in the city, including Toldboden - the venue for our ESTS Party (at own expense for all participants). In the relaxed spirit of the Copenhageners we will not have a Gala Dinner but an informal evening with the dinner based on organic food and time to socialize with friends and colleagues. Toldboden is located on the waterfront and it will provide the perfect setting.

After the official Congress program, I encourage you to have a stroll through the historic city centre and browse Copenhagen's unique shops or enjoy a guided boat tour of the city's 17<sup>th</sup> century canals. You can also visit one

of its many art museums; the historic amusement park Tivoli Gardens; or the contemporary Opera House, just to mention a few of the pleasures in a city which is also home to the world's oldest monarchy. June is a perfect month to visit Copenhagen as the weather will be mild and invites you to stay outdoors. You might also visit other parts of Zealand including Louisiana museum of modern art and Kronborg – the castle of Prince Hamlet of Denmark well known from the play written by William Shakespeare.

Finally, do like the Copenhageners: hop on a bike to get some exercise, or simply to get around easily, in this welcoming and open city.

A handwritten signature in black ink, appearing to read 'Henrik Jessen Hansen'. The signature is stylized with long, sweeping strokes.

## SYMPOSIUM FOR NURSES

**Monday, 16 June and Tuesday, 17 June 2014**

For the first time in the history of ESTS conferences we welcome you to a full day of specialized and research-based nursing in an international perspective.

The main objective of the conference is to improve and develop the clinical practice for the general thoracic patient and use this unique opportunity for European nurses, physiotherapists and clinicians to strengthen and exchange their expertise and knowledge alongside the interdisciplinary collaboration with the surgeons.

The scientific programme will be composed of invited keynote speakers, oral presentations, a poster session, panel discussion and the opportunity to attend the 6<sup>th</sup> Joint Collaborative Postgraduate symposium.

If you or your colleagues have done research, have a project or a poster to present at the ESTS conference, please submit it and be involved in creating the nursing/physiotherapist part of the ESTS conference.

**Call for abstracts is from 1 December 2013 to 10 January 2014.**

The best "Oral Abstract Presentation" and the best "Poster Abstract Presentation" will be awarded.

Nursing topics of the conference are:

Cancer rehabilitation and survivorship, pre- and postoperative physiotherapy techniques, quality of life, symptom management, nutrition, palliative care, communication, technology in the operation room, trauma, involvement of relatives, children in the operation room and positioning of patients in the operation room.

When participating in the nursing programme, you are welcome to join the other scientific sessions as well.

Sunday, 15 June the Surgeons Postgraduate Session will take place. USA, Asia and Europe are competing for the best argumentative known case, followed by the opening ceremony and reception where you have the opportunity to mix and mingle with colleagues, friends and exhibitors.

Monday, 16 June the Nursing symposia will be held. There are keynote speakers and oral abstract sessions throughout the day. A panel discussion with keynote speakers and the audience will end the day. In the evening the chaired poster session will be held and also there will be an opportunity to participate in a video session on surgery techniques.

Tuesday, 17 June you are invited to visit the University Hospital of Rigshospitalet in the morning – both the ward and the operating theatre. The transport is at your own expense. During the day you will have the opportunity to participate at the surgeons' 'Quality of Life' session. Tuesday evening there is a dinner and dance party, at own expense (reduced price for nurses).

We are looking forward to welcoming you to some amazing and innovative days at the Bella Center, Copenhagen.

- An innovative surgical technique
- A clinical lesson
- A particularly illustrative case of interest for the thoracic community

The interactive presentations should be 10 minutes long including interactive discussion. Video clips are welcomed but must be included within the time limit. The speaker should present the clinical case only; NOT a literature review or case series.

We would like you to explain in the abstract (300 words) what your case is about, what you think is of special interest for the audience and its clinical implications.

### POSTER SESSION

A number of abstracts will be selected for poster presentation.

Moderated posters are allocated 3 minutes presentation time followed by a discussion period of 2 minutes.

Maximum dimensions: Portrait: Length 120 cm, width 90 cm
